

MAMALAIT[®] GRANULES

Breast Milk is a natural and wholesome food for an infant owing to its health benefits. Thus, ensuring adequate supply of nutritious milk is important.

Dietary Supplement for Pregnant and Lactating Mothers.

Why Mamalait granules?

A lot of nursing mothers are silently suffering from inadequate breast milk to feed their babies while some women immunity has been compromised due to hormonal changes during pregnancy, here comes a solution to all the struggles.

MAMALAIT[®] GRANULES

DIETARY SUPPLEMENT TO IMPROVE AND INCREASE BREASTFEEDING.

IMPORTANCE OF BREAST MILK

- ❖ Mothers milk is the most convenient, wholesome, hygienic and optimal source of nutrition for the baby during the first six months.
- ❖ Breast milk also demonstrates antimicrobial properties as it habits the growth of Escherichia coli and Salmonella.
- ❖ Reduces the incidence of diarrhea, asthma, upper respiratory tract beneficial effects of breastfeeding.
- ❖ Brain development in infants is promoted by the presence of fatty acids like docosahexaenoic (DHA) and arachidonic acid (AA) in mother's milk.
- ❖ Breastfeeding also helps in the development of a unique bond between mother and the child.
- ❖ Additionally, it has been reported that feeding bottles are lined with epoxy resins such as bisphenol A that are potentially hazardous for the child, therefore breastfeeding is encouraged by doctors over bottles feeding.

The benefit of Dietary Supplement Formulation.

- Recent studies and reviews, provides evidence on the potential benefit of natural phytochemicals in improving human health.
- There are several advantages associated with the use of herbal medicines as opposed to pharmaceuticals products.
- Herbal formulations are mostly used to prevent disease or modify the way in which the body functions to meet the demands of a healthy lifestyles.
- There are reports of the use of such herbal formulations as natural galactagogues since ancient times.

MAMALAIT® GRANULES

The herbs in Mamalait Granules are carefully selected and combined to strengthen the formula proven to promote and enrich mothers milk.

The primary herb Shatavari offers targeted benefits for its galactagogue an effect, while the supporting herbs reinforce the benefits of the primary herb.
